AlkaGent®

ALKALINE CAGE WASH

- Versatile, low-foaming detergent
- Effectively removes blood and other bio-burden from surfaces
- Maintains high pH level for effective cleaning and corrosion protection of equipment
- Unique buffer / polymer system provides two modes of cleaning performance
- Rust inhibitors reduce tarnishing and corrosion
- Prevents bio-burden from depositing on cages and other equipment
- Biodegradable and phosphate-free

For use in both automated cage washers, manual use on a variety of equipment and ultrasonic units within the life science, veterinary, and research industries.
